

## Chapter 1 GENERAL INFORMATION

## LIST OF CONTENTS

	<i>Para</i>
<i>Introduction</i> ... ..	1
<i>Modifications</i> ... ..	3
<i>Access doors and panels</i> ... ..	4

**Introduction**

1. This Chapter only covers information peculiar to this aircraft and must, therefore, be read in conjunction with AP 101B-1202-1B, Cover 2, Sect 7, Chap 1 for information that is common to the basic Mk. 2 aircraft.

2. As there are slight changes in the cockpit layout, illustrations of the cockpit controls

and indicators are included in Sect 17 of the Servicing Diagrams Manual (SDM).

**Modifications**

3. The instrument systems described in succeeding chapters of this Section are to Mod 1188 standard. Subsequent modifications will be incorporated in the relevant chapters, while information relating to the

pre-modified state will be transferred into appendixes to those chapters.

**Access doors and panels**

4. Diagrams showing the locations of access doors and panels with an associated key listing the components to which they provide access, are in Sect 12, Chap 4.
