

GROUP B—POWER SUPPLY SERVICES**LIST OF SERVICES**

Note.—A list of contents appears at the beginning of each group

	Group
GENERATORS AND BATTERIES (CODE GA)	... B.1

Introduction

This group contains a description of the D.C. power supply installation, together with the method of operation and the necessary servicing required to maintain the installation in an efficient condition. Routing and theoretical diagrams of the circuit are also included. For a general description of the electrical system as a whole, reference should be made to Group A of this chapter, while detailed information on the standard components employed will be found in the appropriate Air Publications quoted in this group.
