

## Chapter 2

### INSTRUMENT INSTALLATION

#### LIST OF GROUPS

<i>Group</i>	<i>Group</i>	<i>Group</i>
<b>GENERAL INFORMATION - 1</b>	<i>Oil pressure gauge and tachometer ...</i> 2C	<i>Mechanically operated flight instruments... ..</i> 3C
<i>Installation details ... ..</i> 1A		
<i>Removal of instrument panels ... ..</i> 1B		
<i>Location of equipment ... ..</i> 1C		
<b>ENGINE INSTRUMENTS - 2</b>	<b>FLYING INSTRUMENTS - 3</b>	<b>ARMAMENT INSTRUMENTS - 4</b>
<i>Fuel content gauges and fuel pressure warning ... ..</i> 2A	<i>Air pressure operated flight instruments... ..</i> 3A	<i>Gyro gun sight and camera recorder ...</i> 4A
<i>Exhaust gas thermometer and top temperature control ... ..</i> 2B	<i>Electrically operated flight instruments... ..</i> 3B	
	<b>MISCELLANEOUS INSTRUMENTS - 5</b>	
	<i>Gauges and indicating instruments ...</i> 5A	

#### Note . . .

*A list of contents appears at the beginning of each group.*

#### Introduction

This chapter contains a description of the various instruments installed in this aircraft, together with the necessary servicing information required to maintain the installation in an efficient condition. The chapter is divided into a number of self-contained groups of information, beginning with general information groups covering

the instrument installation as a whole and embodying installation details, general servicing, location of equipment and the removal of the instrument panels. The remaining groups each appertain to a particular collection of instruments as listed above. Each group embodies a description of the installation of the in-

struments concerned, including the necessary servicing information and wiring diagrams of the electrically operated instruments. For a detailed description on the standard components employed, reference should be made to the appropriate Air Publications quoted in the following groups.
