

CHAPTER 2

INSTRUMENT INSTALLATION

LIST OF GROUPS

<i>Group</i>	<i>Group</i>
GENERAL INFORMATION - 1	FLYING INSTRUMENTS - 3
<i>Installation details 1A</i>	<i>Air pressure operated instruments ... 3A</i>
<i>Removal of instrument panels 1B</i>	<i>Electrically operated instruments ... 3B</i>
<i>Location of equipment 1C</i>	<i>Mechanically operated instruments ... 3C</i>
ENGINE INSTRUMENTS - 2	ARMAMENT INSTRUMENTS - 4
<i>Fuel content gauges, cock control and fuel pressure warning 2A</i>	<i>Gyro gun sight and camera recorder .. 4A</i>
<i>Exhaust gas thermometer and top temperature control 2B</i>	MISCELLANEOUS INSTRUMENTS - 5
<i>Oil pressure gauge and tachometer ... 2C</i>	<i>Gauges and indicating instruments ... 5A</i>

Note . . .

*A list of contents appears at the
beginning of each group.*

Introduction

This chapter contains a description of the various instruments installed in this aircraft, together with the necessary servicing information required to maintain the installation in an efficient condition. The chapter is divided into a number of self-contained groups of information, beginning with a general information group covering the instrument installation as a whole and embodying installation details, general servicing, location of equipment and the removal of the instrument panels. The

remaining groups each appertain to a particular collection of instruments as listed above. Each group embodies a description of the installation of the instruments concerned, including the necessary servicing information and wiring diagrams of the electrically operated instruments. For a detailed description of the standard components employed, reference should be made to the appropriate Air Publications quoted in the following groups.
