MEMORANDUM OF INSTRUCTIONS

1. **CONTENTS.** This Schedule contains a list of the Airframe Spare Parts embodied in Hunter GA. Mk. 11 and PR. Mk. 11 which have been allocated Vocabulary Section 26FX.
2. **DEMANDS.** Units are to prepare their demands for spare parts strictly in accordance with B.R.4. Demands for the parts required to make an airframe serviceable are invariably to quote the Serial Number of the Aircraft. Units are to demand parts for this airframe under Vocabulary Section 26FX except where the schedule states otherwise. Where the schedule states that a part is held under another Vocabulary Section the demand should quote that section after reference to the appropriate publication.
3. Unreferenced airframe items are not normally provisioned as spares. Demands for these are to be submitted only when required to replace parts which have become unserviceable in use, or to meet anticipated requirements where previous consumption has been recorded. Such demands are to quote Makers Part No.
4. Parts qualified by the symbol "LM" are to be manufactured by consumer units. If it is found that manufacture is beyond the capacity of the Unit and that the requirement cannot be economically met by fitting an assembly bearing a reference number, then the Unit should demand the part required under its part number and endorse demand, "Unable to manufacture Locally".
5. When a Unit requires an unreferenced item which is beyond the Unit's capacity to manufacture, or when a referenced part cannot be obtained, consideration should be given to fitting the assembly of which this item is a part, if that assembly bears a reference number.
6. In certain circumstances it is necessary to supply items unfinished, i.e., holes undersize or omitted and/or with trimming allowance, these items will be shown with the sign $\pm$ against the reference number.
7. **MAJOR REPAIR ITEMS.** Certain items are annotated "MR". These are normally provisioned for issue only to Units and Contractors authorised to undertake the major repair of Hunter airframes. For ease of assembly "MR" items may be supplied unfinished, i.e. holes undersize or omitted and/or with trimming allowance.
8. **OBSOLESCE STOCK.** An asterisk (*) shown in the Part No. column of an item indicates that no further purchase of the item will be made but that stocks will be issued until they are exhausted.
9. **NUMBERS OFF.** The figure in the Number Off column indicates:—
 - (a) The quantity required per airframe when the description is NOT indented.
 - (b) The quantity required per assembly or sub assembly when the description IS indented.
10. **COMPILATION OF TEXT.** The multi-indentation system has been used in which the main assemblies, sub-assemblies, groups and detail items indicate their relationship by the indentation of the descriptive titles. The indentation is in accordance with the following outline:—
 - (a) The Main Assembly starts at the left hand margin and is printed in capital letters.
 - (b) First division:—
Sub-assemblies, groups or detail parts of the Main Assembly are indented one space.
 - (c) Second division:—
Group or detail parts which are components of a Sub-assembly or group are each indented a further space.
 - (d) Third and subsequent divisions:—
In sequence.
11. **MAIN ASSEMBLY DRAWINGS.** Where for description or identification purposes only a Main Assembly drawing is shown, that drawing number is shown in brackets at the end of the description.

MEMORANDUM OF INSTRUCTIONS

12. **PIPE LINES AND ELECTRICAL CABLES.** Local manufacture of these items is intended wherever possible. Charts showing the various materials and parts required are included as appendixes at the end of the schedule.

Pren cable is now obsolete, replacement is to be by the Nyvin equivalent. Where tag ends are used the "twistgrip" type are to be used *not* single grip type which can lead to core fracture.

13. **AMENDMENT LISTS.** Amendments are to be correctly inserted and entered in the Amendment Certificate which is to be found in front of the schedule.

Amendment Lists are numbered consecutively and will be issued at regular intervals. This schedule is to be checked with the Amendment Check Lists issued periodically by O.S.(N.P.S.)i.

If any Amendment Lists have not been received they are to be demanded from O.S.(N.P.S.)i, Shed 25A, Royal Arsenal, West Woolwich, S.E.18.

14. **SUPPLEMENTARY INDEXES.** When Amendment Lists are issued they may include an Index in the form of Index of Part Numbers and Page Numbers, which will cover the additions brought about by the Amendment. These Supplementary Indexes will be inserted at the end of the existing Part Number Indexes.

15. **ASSOCIATED PUBLICATIONS.** The following associated Schedules of Spare Parts for Airframe Accessory Equipment are to be used in conjunction with this Schedule:—
