

AP 101B-2800-6

(Formerly AP 1803R, Vol. 6)

GANNET AIRCRAFT HYDRAULIC EQUIPMENT

REPAIR AND RECONDITIONING INSTRUCTIONS

BY COMMAND OF THE DEFENCE COUNCIL

Michael Cany

Ministry of Defence

Sponsored for use in the

ROYAL NAVY by HAD(N)

Prepared by Fairey Hydraulics Ltd, Heston, Middlesex

Publications authority: DATP/MOD(PE)

Service users should send their comments through
the channel prescribed for the purpose in:

AP(N) 140 Chap. 1 Annex A (RN)
AP 3158 Vol. 2 Leaflet No. D6 (RAF)

NOTE TO READERS

The subject matter of this publication may be affected by Defence Council Instructions, Servicing schedules (Volume 4 and 5), or 'General Orders and Modifications' leaflets in this A.P., in the associated publications listed below or even in some others. If possible, Amendment Lists are issued to correct this publication accordingly, but it is not always practicable to do so. When an Instruction, Servicing schedule or leaflet contradicts any portion of this publication, the Instruction, Servicing schedule or leaflet is to be taken as the overriding authority.

The inclusion of references to items of equipment does not constitute authority for demanding the items.

◀ Each leaf, except the original issue of preliminaries, bears the date of issue and the number of the Amendment List with which it was issued. New or amended technical matter will be indicated by black triangles positioned in the text thus:- ◀---▶ to show the extent of amended text, and thus:-▶▶ to show where text has been deleted. When a Part, Section or Chapter is issued in a completely revised form, the triangles will not appear.

New or amended technical information on leaves issued before September 1969 is indicated by a vertical line in the margin. This line merely denotes a change and is not a mark of emphasis. The line does not appear when a Part, Section or Chapter was issued in a completely revised form.

This publication is now unclassified; new or revised leaves will not carry a security marking. A.L. 47 called for all security markings to be deleted from pages already issued. Holders should take this action as soon as reasonably possible and in any event before this publication or any part of it is disposed of as waste. ▶

LIST OF ASSOCIATED PUBLICATIONS

Aircraft pneumatic equipment - miscellaneous	4303Z
Electro-plating and corrosion-resisting processes	...	880B	
Powered flying control units - Fairey	4601A

LIST OF SECTIONS

Note — A list of chapters appears at the beginning of each section

- 1 General information
- 2 Main undercarriages
- 3 Nose undercarriages
- 4 Tail undercarriages
- 5 Jacks and similar components
- 6 Arresting-hook dampers
- 7 Restrictors
- 8 Manually operated valves
- 9 Mechanically operated valves
- 10 Automatic valves
- 11 Filters
- 12 Reservoirs
- 13 Accumulators

NOTE TO READERS

◀ In August 1974 the reference number of this publication was changed from 1803R, Vol.6 to 101B-2800-6. No general revision of page captions was undertaken but the new number appears in place of the earlier reference on new or amended leaves issued subsequent to that date. ▶
