

## MEMORANDUM OF INSTRUCTIONS

### CONTENTS

1. This Schedule contains a list of the Spare Parts embodied in a Type of Martin-Baker Ejection Seat as shown on the cover and fly-sheet.

### DEMANDS

2. Units are to prepare their demands for spare parts strictly in accordance with, AP.830, Vol.1. Demands for the parts required to make an ejection seat serviceable are invariably to quote the Serial Number. Units are to demand parts for this seat under Vocabulary Section 27L except where the schedule states otherwise. Where the schedule states that a part is held under another Vocabulary Section the demand should quote that section after reference to the appropriate publication.

3. Unreferenced seat items are not normally provisioned as spares. Demands for these items are to be submitted only when required to replace parts which have become unserviceable in use, or to meet anticipated requirements where previous consumption has been recorded. Such demands are to quote Makers Part No.

### MODIFICATIONS (CLASSES 1 OR 2)

4. When an item is introduced by a modification the modification number is shown after the description of the item. Redundant items are deleted from the text.

### MODIFICATIONS (CLASSES 3 AND 4) AND AMENDMENTS

5. When an item is introduced by this authority the number is shown after the description. Parts rendered redundant are not to be deleted from the publication, but the description of these items must include the additional words "(PRE MOD)". New items added must include, in the description, the words "(MOD)".

### NUMBERS OFF
