APPENDIX A

SECTION 1

10	9	8	7	6	5	4	3
					<p>1. The first part of the report is a general description of the project and its objectives. It includes a brief history of the project and a statement of the problem to be solved.</p> <p>2. The second part of the report is a description of the methods used in the study. This includes a discussion of the experimental design, the data collection procedures, and the statistical methods used to analyze the data.</p> <p>3. The third part of the report is a presentation of the results of the study. This includes a discussion of the findings, a comparison of the results with previous studies, and a discussion of the implications of the findings.</p> <p>4. The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study and provides recommendations for further research. The references list the sources of information used in the study.</p>
