MEMORANDUM OF INSTRUCTIONS

1. CONTENTS. This Schedule contains a list of the Airframe Spare Parts embodied in Canberra P.R. Mark 9 which have been allocated Vocabulary Section 26FZ/.
2. DEMANDS. (a) Units are to prepare their demands for spare parts strictly in accordance with A.P.830, Vol. 1. Demands for the parts required to make an airframe serviceable are invariably to quote the Mark of the Aircraft. Units are to demand parts for this airframe under Vocabulary Section 26FZ/ except where the schedule states otherwise. Where the schedule states that a part is held under another Vocabulary Section the demand should quote that section after reference to the appropriate publication.

(b) Unreferenced airframe items are not normally provisioned as spares. Demands for these items are to be submitted only when required to replace parts which have become unserviceable in use, or to meet anticipated requirements where previous consumption has been recorded. Such demands are to quote Makers Part Number.

(c) Parts qualified by the symbol "LM" are to be manufactured by Consumer Units. If it is found that manufacture is beyond the capacity of the Unit, and that the requirement cannot be economically met by fitting an assembly bearing a reference number, then the Unit should demand that part required under its part number and endorse demand "Unable to manufacture locally".

(d) When a Unit requires an unreferenced item which is beyond the Unit's capacity to manufacture or when a reference part cannot be obtained, consideration should be given to fitting the assembly of which this item is a part, if that assembly bears a reference number.

(e) Certain items are annotated "MR". These are normally provisioned for issue only to Units and Contractors authorised to undertake the major repair of Canberra P.R. Mark 9 airframes.
3. MODIFICATION (CLASSES 1 and 2). When an item is introduced by a modification the modification number is shown after the description of the item. Redundant items are deleted from the text.
4. MODIFICATIONS (CLASSES 3 and 4) AND AMENDMENTS. When an item is introduced by this authority the number is shown after the description. Parts rendered redundant are not deleted from the publication but the description of these items will include the additional words "(PRE MOD )". New items will include in the description the words "(MOD )".
5. OBSOLESCE STOCK. An asterisk (\*) shown in the Part Number column of an items indicates that no further purchase of the item will be made but that stocks will be issued until they are exhausted.
6. NUMBERS OFF. The figure in the Number Off column indicates:
