- 8 Torch igniters
- 9 Minimum burner pressure valves
- 10 Pressurizing valves
- 11 Flow distributors
- 12 Air/fuel ratio controls
- 13 Combined control units
- 14 Governors

NOTE TO READERS

The subject matter of this publication may be affected by Admiralty Fleet Orders, Air Ministry Orders, or by "General Orders and Modifications" leaflets in this A.P., in the associated publications listed below, or even in some others. If possible, Amendment Lists are issued to correct this volume accordingly, but it is not always practicable to do so. When an Order or leaflet contradicts any portion of this publication, the Order or leaflet is to be taken as the overriding authority.

The inclusion of references to items of equipment does not constitute authority for demanding the items.

Each leaf, except the original issue of preliminaries, bears the date of issue and the number of the Amendment List with which it was issued. New or amended technical information on new leaves which are inserted when this publication is amended will be indicated by a vertical line in the margin. This line merely denotes a change and is not a mark of emphasis. When a Part, Section, or Chapter is issued in a completely revised form, the line will not appear.

This Air Publication is divided into two books. Book 1 contains Sections 1 and 2, and Book 2 contains the remainder of the sections.

ASSOCIATED PUBLICATION

	A.P.
<i>The preservation of aero-engines, engine change units, accessories, propellers and associated equipment</i>	4471A

RESTRICTED

LAYOUT OF A.P.4282A

**FUEL SYSTEM COMPONENTS (LUCAS) FOR GAS TURBINE
