

Chapter 2**INSTRUMENT INSTALLATION****LIST OF GROUPS**

	<i>Group</i>
<i>General information</i>	1
<i>Engine instruments</i>	2
<i>Flying instruments</i>	3
<i>Armament instruments</i>	4
<i>Miscellaneous instruments</i>	5

Introduction

This chapter contains a brief description of the various instruments installed in this aircraft, together with servicing information. The chapter is divided into a number of self-contained groups of information, beginning with a GENERAL INFORMATION group covering the instrument installation as a whole and embodying installation details, general servicing, location of components and the removal of the instrument panels. The remaining groups each appertain to a particular collection of instruments, as listed above. Each of these groups is complete with a list of contents and embodies a description of the installation of the instruments concerned, including the necessary servicing information. Routing and theoretical diagrams of the electrically-operated instruments are also given, together with illustrations of the other installations where necessary. For detailed information on the instruments used, reference should be made to the relevant volume of A.P.1275 series.
