MEMORANDUM OF INSTRUCTIONS

1. CONTENTS

This Schedule contains a list of the Spare Parts embodied in NORMALAIR AIRCRAFT PRESSURISATION EQUIPMENT, which have been allocated Vocabulary Section 27KD.

2. DEMANDS

Units are to prepare their demands for spare parts strictly in accordance with A.P.830, Vol. 1, and A.P.(N) 5. Units are to demand parts under Vocabulary Section 27KD except where the Schedule states otherwise. Where the Schedule states that a part is held under another Vocabulary Section, the demand should quote that Section after reference to the appropriate publication.

3. Unreferenced items are not normally provisioned as spares. Demands for these items are to be submitted only when it is required to replace parts which have become unserviceable in use, or to meet anticipated requirements where previous consumption has been recorded. Such demands are to quote MAKERS PART No.

4. Parts qualified by the symbol "LM" are to be manufactured by consumer units. If it is found that manufacture is beyond the capacity of the unit and that the requirement cannot be met economically by fitting an assembly bearing a reference number, then the Unit should demand the part required under its part number, and endorse demand "Unable to manufacture locally."

4a. Parts qualified "LM" are to be made from pattern, or from a drawing obtained from Admiralty in accordance with N.A.M.M. Art. 84, using the material specified in the Material Specification column.

5. When a Unit requires an unreferenced item which it is beyond the Unit's capacity to manufacture, or when a referenced part cannot be obtained, consideration should be given to fitting the assembly of which this item is a part, if that assembly bears a reference number.

6. Certain items are annotated "MR". These are normally provisioned for issue only to Units and Contractors authorised to undertake major repairs.

7. MODIFICATIONS (CLASSES 1 or 2)

When an item is introduced by a modification, the modification number is shown after the description of the item. Redundant items are deleted from the text.

8. MODIFICATIONS (CLASSES 3 and 4) and AMENDMENTS

When an item is introduced by this authority, the No. is shown after the description. Parts rendered redundant are not to be deleted from the publication, but the description must include the additional words "(PRE MOD.)". New items added must include in the description the words "(MOD.)".

9. OBSOLESCENT STOCK

An asterisk (*) shown in the Part No. column of an item indicates that no further purchase of the item will be made, but that stocks will be issued until they are exhausted.

10. NUMBERS OFF

The figure in the Number Off column indicates :

- (a) In the case of an item not indented (that is, a Major Unit complete), it sets the numerical standard to which all the subsequent indented items are related. Thus, the number off against all Major Units is shown as "1" and it is emphasized that this does **NOT** refer to the number off per airframe.
- (b) In the case of all indented items (that is, everything other than a "Major Unit" complete) it relates to the number off per Major Unit of that particular assembly, or single item.

11. COMPILATION OF TEXT

The multi-indentation system has been used, in which assemblies and detail items indicate their relationship by the indentation of the descriptive titles. The indentation is in accordance with the following outline:—

- (a) The Major Unit starts at the left hand margin and is printed in capital letters.
- (b) **First division** :—
Assemblies, or detail parts of the Major Unit are indented one space.
- (c) **Second division** :—
Sub-Assemblies, or detail parts which are components of an assembly are each indented a further space.
- (d) Third and subsequent divisions.

12. AMENDMENT LISTS

Amendments are to be inserted correctly, and entered in the Amendment Certificate which is to be found in front of the Schedule. Manuscript Amendments are to be made in ink; amendment lists are numbered consecutively, and will be issued at regular intervals. This Schedule is to be checked with the statement of Amendment Lists issued, which is published periodically by A.M.O.s and A.F.O.s.

If any Amendment Lists (R.N.) have not been received, they are to be demanded from Head of Military Branch (Books), Block 'C', Station Approach Buildings, Kidbrooke, S.E.3.

13. SERIAL NUMBER

This Schedule is serial numbered and is to be accounted for in accordance with A.M.O. A.772/47 and AP(N)5.

14. CLASSIFICATION OF EQUIPMENT

The letters denoting the Class of Store are defined as follows:—

CLASS "A"—Class "A" items are those items of equipment which remain on charge and cannot be replaced except on return to store. Repairable items which are beyond the capacity or authority of the unit to repair, are to be returned to the appropriate Maintenance Unit, categorised R/D.

CLASS "B"—Class "B" items are those items of equipment which remain on charge and cannot be replaced except on return to store. Items which are beyond the capacity of the unit to repair, or which for technical reasons are not capable of being repaired, whatever the defect, are to be disposed of locally by units.

CLASS "C"—Class "C" items are items of equipment, other than Class "A" or "B" which are consumable in use, or are incapable of being economically repaired, and are not of a nature which would necessitate detailed accounting as Class "A" or "B" equipment.

15. ITEMS FOR NAVAL USE ONLY

Where an item is intended for use within the Royal Navy only, and will not, therefore, be held by units of the Royal Air Force, such an item will carry the suffix "(R.N.)" after its description.

16. MATERIAL ABBREVIATION

Certain abbreviations are used in the "Matl. Spec." column, and these are to be interpreted as follows:
