

ITEM 56

IMMERSION SUIT, Mk. 7

Ref. No. 22C/1671—1680 and 1845 and 1846

**Use**

A suit designed to give a measure of protection under wet/cold conditions in the event of a ditching.

**Details**

Consists of a blouse and trousers sealed by two rubber strips, one on each garment which are rolled together at the waist. The legs and wrists are sealed. Rubber boots are issued separately and must be permanently attached to the trouser legs before the suit can be used. Mitts, which can be inflated orally are also issued as separate items.
